CG Assets responding  
to the LA...

Hi Mariette,

*4/5/04 Request made to Scott for tel # in preparation  
of interviewing. 10:49AM See attachment of this email.*

Attached is the list of CG Assets that responded to the LADY D incident on March 6, 2004. These assets include 3 CG vessels and one helicopter. As stated in the SAR report log that I gave you in the green folder, CG 272005 was the first vessel on scene and CG 212047 was on scene shortly afterwards. CG 41359 was on scene at app. 1916 on March 6, 2004 and CG 212047 had to stand down shortly thereafter due to crew fatigue.

When you get a chance, would you be able to forward over some of the pictures that the Navy reservists took?

Regarding the ss #'s for the victims of this incident, I have been unsuccessful and will just wait until I get the ME's report to see if these numbers are on the report.

I think this covers any requests that you had. Just let me know if you need anything else.

Thanks,

LT Scott Baranowski

Hi Scott,

Just wanted to update you in regards of autopsy reports. Spoke with ME office yesterday and I do have the case numbers of the five deceased. I will make a formal request directly to ME office for them to send records over. If you need the same information, let me know.

Thanks,  
Mariette

CG Assets responding to the LADY D casualty on March 6, 2004
